

The Ocular Surface
Copyright Transfer Agreement and Author Disclosure Statement

FAX: Please sign and FAX to DeborahAnne C. Sandke, 212-791-4980, or send the signed copy in electronic format to dsandke@ethiscommunications.com

TITLE:

AUTHORS:

INTRODUCTION: Authors and publishers share a common interest in copyright protection. Copyright protects authors from plagiarism and unlawful uses; publishers require copyright to protect their investment in the editing, production, distribution and marketing of the author's work. The law now requires that copyright be transferred formally in writing. We therefore ask you to read, sign, and return the form below. Attach Financial Disclosure information, if applicable. All authors must sign the form, either on the same copy or on separate copies.

To reproduce this article in its entirety (or substantial portion), the publisher of the intended reproduction must seek permission of Ethis Communications.

Signed Statement

FINANCIAL DISCLOSURE: Each author certifies that he or she has no commercial associations (e.g., consultancies, stock ownership, equity interest, patent/licensing arrangements,) except *as disclosed on an attachment to this statement*. All funding sources supporting the work discussed in the submitted manuscript and all institutional or corporate affiliations of the authors are acknowledged in a footnote in the manuscript.

INSTITUTIONAL REVIEW BOARD/ANIMAL CARE COMMITTEE APPROVAL: If the submitted manuscript describes the author(s)' original experimental work, each author certifies that his or her institution has approved the protocol for any investigation involving humans or animals and that all experimentation was conducted in conformity with the ARVO Statement for the Use of Animals in Ophthalmic or Visual Research.

COPYRIGHT TRANSFER: I hereby transfer to Ethis Communications, Inc. all rights to the article cited above, including any and all copyright ownership worldwide, in all languages, and in all forms of media, including electronic media. If Ethis Communications, Inc. should decide not to publish this work, the corresponding author will be promptly notified and this agreement will be terminated with no further liability or obligation.

I have read the final version of this manuscript and I approve its content.

I represent that I (with any co-authors) am the copyright holder in the above-cited article and that this transfer does not violate the legal rights of any third party.

The previous paragraphs notwithstanding, I specifically retain the following rights:

- *If I am an NIH-funded researcher, the right to submit my final published manuscript to the NIH for public archiving in PubMed Central;*
- *Patent and trademark rights to any process or procedure described in the article;*
- *The right to photocopy and/or to make single electronic copies of the article for my personal use or the personal use of colleagues, provided that such copies are neither sold nor distributed in any systematic way outside the institution for which I work.*
